

## **TPEX Strengthens International Presence, Signs Memorandum of Understanding with the Philippine Stock Exchange**

In active response to the Financial Supervisory Commission's "Asia Asset Management Center" policy and its strategic direction of "International Cooperation in Capital Markets," the Taipei Exchange (TPEX) signed a Memorandum of Understanding (MoU) with the Philippine Stock Exchange (PSE) on June 10, 2025. This MoU not only further deepens close collaboration with exchanges in various countries but also takes concrete steps to advance the internationalization of Taiwan's capital market.

The signing ceremony was held at the PSE's Events Hall, with Chairman Li-Chung Chien of TPEX and President & CEO Ramon S. Monzon of PSE representing the two exchanges. The MoU focuses on promoting substantive collaboration in areas such as SME market development, ESG practices, and product innovation.

"PSE welcomes this partnership and the opportunity to work with TPEX. We are particularly keen on gaining insights on their bond and SME markets because these are areas where TPEX is very strong at and these are the markets we also want to give more focus to," said PSE President and CEO Ramon S. Monzon.

Mr. Li-Chung Chien noted that, recognizing the Philippines as one of the fast-growing economies in South Asia, PSE has emphasized in fostering the growth of SMEs and expanding the fixed income market, which is closely aligned with TPEX's own strategic priorities. Through the signing of this MoU, both parties will further strengthen our respective market.

This collaboration between TPEX and PSE marks an important starting point for strengthening bilateral exchanges and creating a mutually beneficial partnership. It will further deepen Taiwan's international capital market connections and lay the foundation for future cross-border financial innovation.
